

LICENCE PLATE LAYOUT TEMPLATE & GUIDE SHEET

Acceptable File Formats: Please send us your print ready artwork in one of the following file formats: PDF, JPG, TIF, EPS, PSD - RGB colour space, at a resolution of 300dpi. Make sure all fonts are converted to outline, or artwork is flattened.

Bleeds & Cutting Edges: For most of our print jobs, bleeds are required (1/8" minimum) added beyond the crop lines. Text and graphic elements must be kept 1/8" away from the cut lines as safety margins, unless they are attended to become part of the bleed.
